Dear Ms. Chapman:

Thank you for making time to help the Internal Revenue Service, Southern California District, kick off its annual Combined Federal Campaign on October 9, 1996. Your informative discussion about the work being done by the Alliance for the Mentally Ill to help people suffering from mental illness and severe depression to again function effectively in society was inspiring to all of us. I was later asked by several members of the audience to provide details on how to contact you for more information about available programs.

Again, please accept our appreciation for sharing your experiences with all of us. One of the added benefits of our CFC campaign is learning about the wonderful work being done to help the needy throughout our country.

Sincerely,

Dolores M. Trevorrow  
District Coordinator,  
Combined Federal Campaign  
Internal Revenue Service  
Southern California District
